

## DRUG & ALCOHOL POLICY

A W Edwards is committed to promoting workplace health and safety. In line with this, individuals are required to be free from the influence of alcohol or other drugs while at work as these substances can impair co-ordination and judgement and increase the risk of accidents and injuries.

This commitment supports:

- Facilitating the health safety and welfare of employees by removing risks in the workplace;
- Promoting a workplace culture that supports fitness for work;
- Gender and cultural sensitivity; and
- Reducing absenteeism and providing appropriate employee support mechanisms.

All A W Edwards employees, contractors, sub-contractors and professional services contractors are required to:

- Have zero blood alcohol content and be free from the influence of other drugs while on duty;
  - Seek medical advice about their ability to work safely while taking prescribed or over-the-counter drugs;
  - Not commence duties if their doctor or pharmacist advises they are unable to safely do their job;
  - Not consume alcohol while on duty; and
  - With the exception of medical advice, not consume drugs while on duty.
- Submit to drug & alcohol testing at the request of A W Edwards site management. The return of a positive (or non-negative) test, or refusal to perform a test, will result in persons being refused entry to the workplace. They will not be allowed to return to work until they can demonstrate they are fit for work.

A W Edwards encourages any worker, who may be experiencing alcohol or other drug related problems to raise this through self-identification, with their senior manager or their HR Manager on a confidential basis.

A W Edwards will provide all reasonable rehabilitation support and assistance to any employee who self-identifies, to assist them in returning to work.

**BRUCE EDWARDS**

Managing Director  
A W Edwards Pty Limited
